Summary

I am a **Software Engineer & AI Engineer** with 2+ years of experience building scalable full-stack applications and AI-powered automation systems. Delivered **30+ real-world projects** using **React.js**, **Python**, **MongoDB**. Skilled in **Generative AI**, **LLMs (GPT-4)**, **LangChain**, **Prompt Engineering**, **APIs**, and **System Design**, improving operational efficiency by **40%** through intelligent automation.

Technical Skills

Languages: Python, JavaScript, C++, C, SQL

Frameworks: React.js, HTML, CSS3, Tailwind CSS, Node.js, MongoDB

AI/ML: Generative AI, GPT-4, LangChain, Prompt Engineering, OpenCV

Core: Data Structures, OOP, DBMS, Operating Systems, API Integration, Automation

Soft Skills: Leadership, Problem-Solving, Team Player, Communication, Project Management, Adaptability

Experience

Freelance AI Software Developer

Nov 2022 – Present

- Delivered **30+ full-stack and AI-driven applications**, improving automation and system efficiency.
- Built scalable applications using **React.js**, **Node.js**, **MongoDB**, and deployed REST APIs.
- Developed **AI-powered automation systems using GPT-4 and Python**, reducing manual effort by **40%**.
- Designed end-to-end architectures including frontend, backend, APIs, and cloud deployment.

Projects

Built GPT-4 powered lead qualification workflow reducing manual screening time by 60percent for outbound sales operations. 2026

<https://github.com/Yashwanthmdj/AI-Agent-for-LeadQualification>

- Built an **AI-driven lead qualification system** using **LangChain** and **GPT-4**.
- Automated lead engagement and scoring via CRM and messaging integrations.
- Reduced response time by **60%** and improved qualified lead conversion.

AI Smart Assistant for Accessibility (ENZO)

2025

<https://github.com/Yashwanthmdj/enzo-chatbot>

- Developed a **voice-enabled AI assistant** for hands-free system control.
- Implemented real-time execution workflows improving user productivity.

AI-Based Agriculture/Farmers Platform With Multi Support Languages

2025

<https://github.com/Yashwanthmdj/Farm.co>

- Built a **full-stack AI agriculture platform** for crop insights and predictions.
- Integrated APIs for real-time weather and data-driven decision support.

Awards & Certifications

- **1st Place – National AI Autonomous Hackathon**
- **1st Place – CBIT Hackathon**
- **Student Board Achievement(3×)**
- **Salesforce AgentForce Specialist**
